

**C Line sampling
Rare species**
Data is recorded at
<https://hekkefugloervakingen.nina.no>, or
send the form electronically to your
regional coordinator (addresses on the
website).
Form version 2014

Norwegian bird monitoring
**Mark the form also with zero
observation of birds!**

Line Sampling **only between the first
and last count point in the route**, and
the total of **the number of pairs** is
entered here. Apart from passerines
include all species except gulls and
wood pigeons. For passerines: rare
species are given below. Include even
more rare species than the nine given
here!
